

DEVELOPMENTAL SCREENING

ASQ-3 is a questionnaire about how children are doing in important areas, such as speech, physical ability, social skills, and problem-solving skills. ASQ-3 can help identify your child's strengths, as well as any areas where your child may need support.

HOW DOES IT WORK?

As a parent or caregiver, you are the best source of information about your child. That's why the ASQs are designed to be filled out by you. You will only need 10-15 minutes!

Here's how it works:

- Use this link to complete the ASQ-3 on your phone, tablet, or computer: <https://www.asqonline.com/family/e68f84>
- You will need to answer each question for the ASQ-3 with "yes," "sometimes," or "not yet," based on what your child is able to do now and "concern" to denote extra emphasis about a specific area of your child's development.
- To answer each question, try fun and simple activities with your child.

WHAT IF I HAVE CONCERNS ABOUT SOCIAL EMOTIONAL DEVELOPMENT?

There is an additional survey called ASQ: SE that has a set of questionnaires about behavior and social –emotional development in young children you can use the same link as above to complete the ASQ-SE. If you don't have time to do both then choose the ASQ-3 only. <https://www.asqonline.com/family/1bf092>

WHAT HAPPENS NEXT?

You will receive a follow up with you regarding your ASQ results from the Help Me Grow Care Coordinator. If your child is developing without concerns, Help Me Grow will share the results and suggest fun activities that you can do with your child.

If there are any concerns or questions about your child's development, Help Me Grow will call you to discuss the results and offer additional resources.

If you have questions about how your child is growing, behaving, learning or speaking call **530-552-3919** to connect with Help Me Grow!
